

Post on *Facebook* about Caboose by Hotel Anthracite, August 23, 2021:

Hotel Anthracite

Exciting things are happening just down the road from Hotel Anthracite. Carbondale just put a caboose by the Town Hall that will soon be turned into a visitor center.[25 “likes” on August 23, 2021]

Comments:

Silas Robert Powell: FRIENDS of DELAWARE AND HUDSON CABOOSE No. 35964:

One of the primary missions of the Carbondale Historical Society is to preserve important artifacts from Carbondale’s historic past. One such artifact is D&H Caboose No. 35964, which the Society acquired in December 2010, and which was put on display next to Carbondale City Hall in August 2021.

When the Historical Society purchased the Caboose in 2010, a “Friends” group was established. That “Friends” group is still in existence, and we continue to welcome all persons who are interested in this Caboose and its future to become members of the “Friends of D&H Caboose No. 35964”. To become a member, and to help create a bright future for this important D&H railcar, contact the Carbondale Historical Society at carbondalehistorical@gmail.com

Judy Gretzula: It would be nice if tree was gone to get the full effect if/when the visitor center becomes reality. I like trees, but this one seems to interfere with the whole asthetic of the project. [Two “likes” on August 23, one from Julie Cerra, the other from Gerard Grandinetti]
